TRACK GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) BASIS OF PRESENTATION

The unaudited interim condensed consolidated financial information of Track Group, Inc. and subsidiaries (collectively, the “Company” or “Track Group”) has been prepared in accordance with the Instructions to Form 10-Q and Article 8 of Regulation S-X promulgated by the Securities and Exchange Commission (“SEC”). Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the accompanying interim consolidated financial information contains all adjustments, consisting only of normal recurring adjustments necessary to present fairly the Company’s financial position as of March 31, 2023, and results of its operations for the three and six months ended March 31, 2023. These financial statements should be read in conjunction with the audited annual consolidated financial statements and notes thereto that are included in the Company’s Annual Report on Form 10-K for the year ended September 30, 2022, filed with the SEC on December 16, 2022. The results of operations for the three months ended March 31, 2023 may not be indicative of the results for the fiscal year ending September 30, 2023.

As of March 31, 2023 and September 30, 2022, the Company had an accumulated deficit of \$307,667,763 and \$306,218,889, respectively. The Company had net loss of (\$1,448,874) and net income of \$146,919 for the six months ended March 31, 2023 and 2022, respectively. The Company has \$42,864,000 of debt maturing in July 2024. On April 27, 2023 the Company announced a three year extension of its \$42.9 million debt to July 1, 2027 (See Note 19). The Company also has six notes payable maturing between January 2, 2024 and February 17, 2025 related to the construction of two monitoring centers related to a new contract, with outstanding balances due for the six notes totaling \$691,775, net of deferred financing fees at March 31, 2023 (See Note 19). The Company’s ability to return to profitable operations is dependent upon generating a level of revenue adequate to support its cost structure, which it achieved on an operating basis in the fiscal year ended September 30, 2021 and was close to achieving in the fiscal year ended September 30, 2022, excluding the approximate \$1.7 million asset impairment. Management has evaluated the significance of these conditions, as well as, the recent change in the maturity date and has determined that the Company can meet its operating obligations for a reasonable period of time. The Company expects to fund operations using cash on hand and through operational cash flows through the upcoming twelve months.

(2) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Track Group, Inc. and its active subsidiaries, Track Group Analytics Limited, Track Group Americas, Inc., Track Group International LTD., and Track Group - Chile SpA. All inter-company transactions have been eliminated in consolidation.

(3) RECENT ACCOUNTING STANDARDS

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board (“FASB”) or other standard setting bodies, which are adopted by the Company as of the specified effective date.

Recently Issued Accounting Standards

In January 2017, the FASB issued Accounting Standards Update (“ASU”) 2017-04, “Intangibles – Goodwill and Other: Simplifying the Test for Goodwill Impairment” (“ASU 2017-04”). ASU 2017-04 simplifies the subsequent measurement of goodwill by removing the second step of the two-step impairment test. The amendment requires an entity to perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. ASU 2017-04 became effective for accelerated filing companies for annual periods or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019, and all other entities should adopt the amendments in ASU 2017-04 for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2022. The amendment should be applied on a prospective basis. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company will adopt ASU 2017-04 in fiscal year 2024. The Company does not anticipate that this adoption will have a significant impact on its consolidated financial position, results of operations, or cash flows.

In June 2016, the FASB issued ASU 2016-13, “*Measurement of Credit Losses on Financial Instruments*” (“ASU 2016-03”). ASU 2016-13 adds a current expected credit loss (“CECL”) impairment model to GAAP that is based on expected losses rather than incurred losses. Modified retrospective adoption is required with any cumulative-effect adjustment recorded to retained earnings as of the beginning of the period of adoption. ASU 2016-13 became effective for fiscal years beginning after December 15, 2019, excluding smaller reporting entities, which will be effective for fiscal years beginning after December 15, 2022. The Company will adopt ASU 2016-13 in fiscal year 2024. The Company does not expect the application of the CECL impairment model to have a significant impact on our allowance for uncollectible amounts for accounts receivable.

(4) IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews its long-lived assets for impairment when events or changes in circumstances indicate that the book value of an asset may not be recoverable and in the case of goodwill, at least annually. The Company evaluates whether events and circumstances have occurred which indicate possible impairment as of each balance sheet date. If the carrying amount of an asset exceeds its fair value, an impairment charge is recognized for the amount by which the carrying amount exceeds the estimated fair value of the asset. Impairment of long-lived assets is assessed at the lowest levels for which there is an identifiable fair value that is independent of other groups of assets.

(5) BUSINESS COMBINATIONS

The Company accounts for its business acquisitions under the acquisition method of accounting as indicated in Accounting Standards Codification (“ASC”) Topic 805, “*Business Combinations*” (“ASC 805”), which requires the acquiring entity in a business combination to recognize the fair value of all assets acquired, liabilities assumed and any non-controlling interest in the acquiree, and establishes the acquisition date as the fair value measurement point. Accordingly, the Company recognizes assets acquired and liabilities assumed in business combinations, including contingent assets and liabilities and non-controlling interest in the acquiree, based on fair value estimates as of the date of acquisition. In accordance with ASC 805, the Company recognizes and measures goodwill as of the acquisition date, as the excess of the fair value of the consideration paid over the fair value of the identified net assets acquired.

Acquired Assets and Assumed Liabilities

Pursuant to ASC 805-10-25, if the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, but during the allowed measurement period not to exceed one year from the acquisition date, the Company retrospectively adjusts the provisional amounts recognized at the acquisition date, by means of adjusting the amount recognized for goodwill.

Contingent Consideration

In certain acquisitions, the Company has agreed to pay additional amounts to the seller contingent upon achievement by the acquired businesses of certain future goals, which may include revenue milestones, new customer accounts and earnings targets. The Company records contingent consideration based on its estimated fair value as of the date of the acquisition. The Company evaluates and adjusts the value of contingent consideration, if necessary, at each reporting period based on the progress toward and likely achievement of certain targets on which issuance of the contingent consideration is based. Any differences between the acquisition-date fair value and the changes in fair value of the contingent consideration subsequent to the acquisition date are recognized in current period earnings until the arrangement is settled. If there is uncertainty surrounding the value of contingent consideration, then the Company’s policy is to wait until the end of the measurement period before making an adjustment.

(6) ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) includes net income (loss) as currently reported under GAAP and other comprehensive income (loss). Other comprehensive income (loss) considers the effects of additional economic events, such as foreign currency translation adjustments, that are not required to be recorded in determining net income (loss), but rather are reported as a separate component of stockholders’ equity. The Chilean Peso, New Israeli Shekel and the Canadian Dollar are used as functional currencies of the following operating subsidiaries: (i) Track Group Chile SpA; (ii) Track Group International Ltd.; and (iii) Track Group Analytics Limited, respectively. The balance sheets of all subsidiaries have been converted into United States Dollars at the prevailing exchange rate at March 31, 2023.

(7) NET INCOME (LOSS) PER COMMON SHARE

Basic net income (loss) per common share (“*Basic EPS*”) is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period.

Diluted net income (loss) per common share (“*Diluted EPS*”) is computed by dividing net income (loss) attributable to common stockholders by the sum of the weighted-average number of common shares outstanding and the weighted-average dilutive common share equivalents outstanding. The computation of Diluted EPS does not assume exercise or conversion of securities that would have an anti-dilutive effect.

Common share equivalents consist of shares issuable upon the exercise of options to purchase shares of the Company’s common stock, \$0.0001 par value per share (“*Common Stock*”) (“*options*”) and warrants to purchase Common Stock (“*warrants*”). As of March 31, 2023 and 2022, there were 103,911 and 15,000 of outstanding common share equivalents that were not included in the computation of Diluted EPS for the six months ended March 31, 2023 and 2022, respectively, as their effect would be anti-dilutive.

At March 31, 2023 all stock options and warrants had exercise prices that were above the market price of \$0.42, and have been excluded from the diluted earnings per share calculations. At March 31, 2022, 394,373 stock options and warrants had exercise prices that were below the market price of \$1.50, and were included in the basic and diluted earnings per share calculations.

(8) REVENUE RECOGNITION

Monitoring and Other Related Services. Monitoring services include two components: (i) lease contracts pursuant to which the Company provides monitoring services and lease devices to distributors or end users and the Company retains ownership of the leased device; and (ii) monitoring services purchased by distributors or end users who have previously purchased monitoring devices and opt to use the Company’s monitoring services. Sales of devices and leased GPS devices are required to use the Company’s monitoring service and both the GPS leased devices and monitoring services are accounted for as a single performance obligation. Monitoring revenue is recognized ratably over time, as the customer simultaneously receives and consumes the benefit of these services as they are performed. Payment due or received from the customers prior to rendering the associated services are recorded as deferred revenue.

The balance of accounts receivables at March 31, 2023 of \$5,490,432 includes an unbilled balance of \$550,887 and the balance of accounts receivable at September 30, 2022 of \$6,236,555 included an unbilled balance of \$777,514. The balance of accounts receivable at September 30, 2021 of \$7,163,615 included an unbilled balance of \$420,697. The balances of the deferred revenue at March 31, 2023, September 30, 2022 and September 30, 2021 are \$1,292, \$3,299, and \$22,500, respectively and were included in accrued liabilities on the Condensed Consolidated Balance Sheets. The Company recognized \$718 and \$3,730, respectively, of deferred revenue in the three and six months ended March 31, 2023 and \$92,015 and \$99,515, respectively, of deferred revenue in the three and six months ended March 31, 2022.

Product Sales and Other. The Company sells devices and replacement parts to customers under certain contracts, as well as law enforcement software licenses and maintenance, and analytical software. Revenue from the sale of devices and parts is recognized upon their transfer of control to the customer, which is generally upon delivery. Delivery is considered complete at either the time of shipment or arrival at destination, based on the agreed upon terms within the contract. Payment terms are generally 30 days from invoice date.

Multiple Element Arrangements. The majority of our revenue transactions do not have multiple elements. However, on occasion, the Company may enter into revenue transactions that have multiple elements. These may include different combinations of products or services that are included in a single billable rate. These products or services are delivered over time as the customer utilizes our services. In cases where obligations in a contract are distinct and thus require separation into multiple performance obligations, revenue recognition guidance requires that contract consideration be allocated to each distinct performance obligation based on its relative standalone selling price. The value allocated to each performance obligation is then recognized as revenue when the revenue recognition criteria for each distinct promise or bundle of promises has been met.

The standalone selling price for each performance obligation is an amount that depicts the amount of consideration to which the entity expects to be entitled in exchange for transferring the good or service. When there is only one performance obligation associated with a contract, the entire sale value is attributed to that obligation. When a contract contains multiple performance obligations the transaction value is first allocated using the observable price, which is generally a list price net of applicable discount, or the price used to sell in similar circumstances. In circumstances when a selling price is not directly observable, the Company will estimate the standalone selling price using information available to us.

The following table presents the Company's revenue by geography, based on management's assessment of available data:

	Three Months Ended March 31, 2023		Three Months Ended March 31, 2022

The above table includes total revenue for the Company, of which monitoring and other related services is the majority (approximately 98% and 96% for the three and six months ended March 31, 2023, respectively, and approximately 93% and 96% for the three and six months ended March 31, 2022, respectively) of the Company's revenue. Latin America includes the Bahamas, Chile, Puerto Rico, Panama and the U.S. Virgin Islands, and other includes Canada and Saudi Arabia.

(9) PREPAID EXPENSE AND DEPOSITS

As of March 31, 2023, and September 30, 2022, the outstanding balance of prepaid expense and deposits was \$509,431 and \$769,006, respectively. These balances are comprised largely of tax deposits, vendor deposits and other prepaid supplier expense.

(10) INVENTORY

Inventory is valued at the lower of the cost or net realizable value. Cost is determined using the first-in/first-out method. Net realizable value is determined based on the item selling price. Inventory is periodically reviewed in order to identify obsolete or damaged items or impaired values.

Inventory primarily consists of completed circuit boards and other parts used to manufacture new devices. Completed and shipped ReliAlert™ devices are reflected in Monitoring Equipment. As of March 31, 2023 and September 30, 2022, inventory consisted of the following:

	March 31, 2023	September 30, 2022
Monitoring equipment component boards inventory	\$ 991,754	\$ 1,053,245
Reserve for damaged or obsolete inventory	-	-
Total inventory, net of reserves	\$ 991,754	\$ 1,053,245

The Company uses a third-party fulfillment service provider. As a result of this service, the Company's employees do not actively assemble new products or repair a significant amount of monitoring equipment shipped directly from suppliers. Purchases of monitoring equipment are recognized directly. Management believes this process reduces maintenance and fulfillment costs associated with inventory and monitoring equipment.

(11) PROPERTY AND EQUIPMENT

Property and equipment consisted of the following as of March 31, 2023 and September 30, 2022:

	March 31, 2023	September 30, 2022
Equipment, software and tooling	\$ 1,429,892	\$ 1,399,288

Property and equipment depreciation expense for the three months ended March 31, 2023 and 2022 was \$23,455 and \$36,603, respectively. Property and equipment depreciation expense for the six months ended March 31, 2023 and 2022 was \$47,050 and \$75,230, respectively.

(12) MONITORING EQUIPMENT

The Company leases monitoring equipment to agencies for offender tracking under contractual service agreements. The monitoring equipment is amortized using the straight-line method over an estimated useful life of between three and five years. Monitoring equipment as of March 31, 2023 and September 30, 2022 was as follows:

	March 31, 2023	September 30, 2022
Monitoring equipment	\$ 12,104,148	\$ 9,574,740
Less: accumulated depreciation	(6,400,702)	(5,950,639)
Monitoring equipment, net of accumulated depreciation	\$ 5,703,446	\$ 3,624,101

Depreciation of monitoring equipment for the three months ended March 31, 2023 and 2022 was \$411,510 and \$324,628, respectively. Depreciation of monitoring equipment for the six months ended March 31, 2023 and 2022 was \$753,578 and \$718,409, respectively. Depreciation expense for monitoring devices is recognized in cost of revenue. During the three months ended March 31, 2023 and 2022, the Company recorded charges of \$144,363 and \$86,187, respectively, for devices that were lost, stolen or damaged. During the six months ended March 31, 2023 and 2022, the Company recorded charges of \$210,257 and \$185,484, respectively, for devices that were lost, stolen or damaged. Lost, stolen and damaged items are included in Monitoring, products & other related service costs in the Condensed Consolidated Statements of Operations.

Goodwill is recognized in connection with acquisition transactions in accordance with ASC 805. The Company performs an impairment test for goodwill annually or more frequently if indicators of potential impairment exist. No impairment of goodwill was recognized through March 31, 2023.

(15) OTHER ASSETS

As of March 31, 2023 and September 30, 2022, the balance of other assets was \$3,056,248 and \$3,509,655, respectively. Other assets at March 31, 2023 are comprised largely of cash used as collateral for Performance Bonds as well as contractually required monitoring center and other equipment, right of use assets, lease deposits and other long-term assets. The Company anticipates these performance bonds will be reimbursed to the Company upon completion of its contracts with the customer. See Note 23.

The Company was contractually obligated to construct and equip two monitoring centers for an international customer, as well as supply equipment for the customer's satellite locations, which are owned by the customer since construction was completed. The Santiago and Puerto Montt monitoring centers amortization is recorded in Monitoring, products and other related service costs on the Condensed Consolidated Statements of Operations. Amortization of costs related to the Santiago and Puerto Montt monitoring centers for the three and six months ended March 31, 2023 were \$147,198 and \$280,502, respectively. Amortization of costs related to the monitoring centers for the three and six months ended March 31, 2022, were approximately \$148,244 and \$224,191, respectively. The Company will record revenue from the customer based on a contractually agreed upon unit per day amount during the contract period. See Note 19 for details of the borrowings related to the monitoring centers construction and equipment.

(20) PREFERRED AND COMMON STOCK

The Company is authorized to issue up to 30,000,000 shares of Common Stock and up to 20,000,000 shares of preferred stock, \$0.0001 par value per share (“*Preferred Stock*”). The Company’s Board has the authority to amend the Company’s Certificate of Incorporation, without further stockholder approval, to designate and determine, in whole or in part, the preferences, limitations and relative rights of the Preferred Stock before any issuance of the Preferred Stock, and to create one or more series of Preferred Stock. As of March 31, 2023, there were no shares of Preferred Stock outstanding.

No dividends were paid during the six months ended March 31, 2023 or 2022, respectively.

Series A Convertible Preferred Stock

On October 12, 2017, the Company filed a Certificate of Designation of the Relative Rights and Preferences (“*Certificate of Designation*”) with the Delaware Division of Corporations, designating 1,200,000 shares of the Company’s Preferred Stock as Series A Preferred (“*Series A Preferred*”). Shares of Series A Preferred rank senior to the Company’s Common Stock, and all other classes and series of equity securities of the Company that by their terms do not rank senior to the Series A Preferred.

Except with respect to transactions upon which holders of the Series A Preferred are entitled to vote separately as a class under the terms of the Certificate of Designation, the Series A Preferred has no voting rights. The shares of Common Stock into which the Series A Preferred is convertible shall, upon issuance, have all of the same voting rights as other issued and outstanding shares of our Common Stock.

The Series A Preferred has no separate dividend rights; however, whenever the Board declares a dividend on the Company's Common Stock, if ever, each holder of record of a share of Series A Preferred shall be entitled to receive an amount equal to such dividend declared on one share of Common Stock multiplied by the number of shares of Common Stock into which such share of Series A Preferred could be converted on the Record Date.

Each share of Series A Preferred has a liquidation preference of \$35.00 per share, and is convertible, at the holder's option, into ten shares of the Company's Common Stock, subject to adjustments as set forth in the Certificate of Designation, at any time beginning five hundred and forty days after the date of issuance.

As of March 31, 2023, no shares of Series A Preferred were issued and outstanding.

(21) STOCK OPTIONS AND WARRANTS

Stock Incentive Plan

At the annual meeting of stockholders on April 13, 2022, our stockholders approved the 2022 Omnibus Equity Incentive Plan (the "2022 Plan"), previously approved by the Company's Board. The 2022 Plan provides for the grant of incentive options and nonqualified options, restricted stock, stock appreciation rights, performance shares, performance stock units, dividend equivalents, stock payments, deferred stock, restricted stock units, other stock-based awards and performance-based awards to employees and certain non-employees who provide services to the Company in lieu of cash. A total of 500,000 shares were authorized for issuance pursuant to awards granted under the 2022 Plan.

The 2022 Plan supersedes and replaces the Company's 2012 Equity Compensation Plan (the "2012 Plan"). As of June 30, 2020, the Board suspended further awards under the 2012 Plan. Any awards outstanding under the 2012 Plan will remain subject to the 2012 Plan. All shares of Common Stock remaining authorized and available for issuance under the 2012 Plan and any shares subject to outstanding awards under the 2012 Plan that subsequently expire, terminate, or are surrendered or forfeited for any reason without issuance of shares will automatically become available for issuance under our 2022 Plan.

On April 13, 2022, the Company issued 285,000 restricted shares to members of its executive team from the 2022 Plan valued at \$370,500. The Company recorded expense of \$51,459 and \$0 for the three months ended March 31, 2023 and 2022, respectively, and recorded expense of \$113,209 and \$0 for the six months ended March 31, 2023 and 2022, respectively, related to the 2022 Plan. There were 215,000 shares of Common Stock available under the 2022 Plan as of March 31, 2023.

All Options and Warrants

The fair value of each stock option and warrant grant is estimated on the date of grant using the Black-Scholes option-pricing model. The Company recorded no expense for the three and six months ended March 31, 2023 and 2022, respectively, related to the issuance and vesting of outstanding options and warrants. During the six months ended March 31, 2023 and 2022, the Company granted no options or warrants under the 2022 Plan or under the 2012 Plan. All options and warrants outstanding under the 2012 Plan have vested and are exercisable as of March 31, 2023.

The expected life of options (warrants) represents the period of time that the options or warrants are expected to be outstanding based on the simplified method allowed under GAAP. The expected volatility is based on the historical price volatility of the Company's Common Stock. The risk-free interest rate represents the U.S. Treasury bill rate for the expected life of the related options (warrants). The dividend yield represents the Company's anticipated cash dividends over the expected life of the options (warrants).

A summary of stock option (warrant) activity for the six months ended March 31, 2023 is presented below:

	Shares Under Option	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value
Outstanding as of September 30, 2022	160,881	\$ 1.24	0.60	\$ 225
Granted	-	-		-
Expired/Cancelled	(56,970)	1.24		-
Exercised	-	-		-
Outstanding as of March 31, 2023	103,911	\$ 1.24	0.23	\$ 0
Exercisable as of March 31, 2023	103,911	\$ 1.24	0.23	\$ 0

The intrinsic value of options and warrants outstanding and exercisable is based on the Company's share price of \$0.42 at March 31, 2023.

(22) INCOME TAXES

The Company recognizes deferred income tax assets or liabilities for the expected future tax consequences of events that have been recognized in the financial statements or income tax returns. Deferred income tax assets or liabilities are determined based upon the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates expected to apply when the differences are expected to be settled or realized. Deferred income tax assets are reviewed periodically for recoverability and valuation allowances are provided as necessary. Interest and penalties related to income tax liabilities, when incurred, are classified in interest expense and income tax provision, respectively.

For the six months ended March 31, 2023 and 2022, the Company incurred net (loss) income for income tax purposes of (\$1,448,874) and \$146,919, respectively. The amount and ultimate realization of the benefits from the net operating losses is dependent, in part, upon the tax laws in effect, our future earnings, and other future events, the effects of which cannot be determined. The Company has established a valuation allowance for all deferred income tax assets not offset by deferred income tax liabilities due to the uncertainty of their realization. Accordingly, there is no benefit for income taxes in the accompanying statements of operations.

In computing income tax, we recognize an income tax provision in tax jurisdictions in which we have pre-tax income for the period and are expecting to generate pre-tax book income during the fiscal year.

(23) COMMITMENTS AND CONTINGENCIES

The Company is, from time to time, involved in various legal proceedings incidental to the conduct of our business. Historically, the outcome of nearly all such legal proceedings has not, in the aggregate, had a material adverse effect on our business, financial condition, results of operations or liquidity. Other than as set forth below, there are no additional pending or threatened legal proceedings at this time.

SecureAlert, Inc. v. Federal Government of Mexico (Department of the Interior). On March 24, 2017, SecureAlert Inc. (a predecessor entity to Track Group, Inc. or the Company) filed a complaint before the Federal Administrative Tribunal, asserting the failure by defendants to pay claimant amounts agreed to, and due under, the Pluri Annual Contract for the Rendering of Monitoring Services of Internees, through Electric Bracelets, in the Islas Marias Penitentiary Complex dated July 15, 2011, entered into by and between the Organo Administrativo Desconcentrado Prevencion y Readaptacion Social ("OADPRS") of the then Public Security Department, and presently, an agency of the National Security Commission of the Department of the Interior, and SecureAlert, Inc., presently Track Group, Inc. The Company's claim amount is upwards of \$6.0 million. Although preliminary rulings have been unfavorable to the Company, the Company's counsel continues to review its remaining claims and analyzing its options. Based upon the fee arrangement the Company has with its counsel, we anticipate the future liabilities attributable to legal expense will be minimal.

Commonwealth of Puerto Rico, through its Trustees v. International Surveillance Services Corporation. On January 23, 2020, the Company was served with a summons for an Adversary Action pending against International Surveillance Services Corporation (“ISS”), a subsidiary of the Company, now known as Track Group – Puerto Rico Inc., in the United States District Court for the District of Puerto Rico seeking to avoid and recover allegedly constructive fraudulent transfers and to disallow claims pursuant to United States Bankruptcy and Puerto Rican law. The allegations stem from payments made to ISS between 2014 and 2017, which the Company believes were properly made in accordance with a contract between ISS and the government of Puerto Rico, through the Oficina de Servicios con Antelacion a Juicio, originally signed in 2011. The Company is confident that all payments it received were earned and due under applicable law and produced documentation supporting its position in an informal document exchange with the Commonwealth on July 6, 2020. The parties held a mediation on November 1, 2022 but were unable to reach an agreement but left open the possibility of additional discussions. The Company remains confident in its position and no accrual for a potential loss has been made, after consultation with legal counsel.

Jeffrey Mohamed Abed v. Track Group, Inc., et al. On June 7, 2021, Jeffrey Mohamed Abed filed a complaint seeking unspecified damages in the Superior Court of the State of California in Case No. 21 STCV 21345, alleging strict products liability, negligence and breach of implied warranty premised upon injuries sustained by Abed who was involved in an automobile accident while wearing a GPS tracking device of the Company. The Company was served on October 15, 2021 and filed its Answer and Affirmative Defenses on November 12, 2021. On January 11, 2022 the Company issued discovery, and the discovery process remains ongoing. The Company disputes Abed’s claims and will defend the case vigorously. The Company remains confident in its position and no accrual for a potential loss has been made, after consultation with legal counsel.

Track Group Chile SpA. v. Republic of Chile. On January 24, 2022, Track Group Chile SpA. initiated a judicial action in the Court of Justice of Chile to settle a contract dispute with the Republic of Chile. The Company asserts that it has complied with its contractual obligations and that any delays in so doing were not attributable to the Company. The Company remains confident in its position and no accrual for a potential loss has been made, after consultation with legal counsel.

Jesus Valle Gonzalez, et al. v. Track Group-Puerto Rico, et al. On May 9, 2022 Plaintiff Jesus Valle Gonzalez filed a complaint in the Court of First Instance, San Juan Superior Court, Commonwealth of Puerto Rico against the Company, and associated parties alleging the death of his mother on June 8, 2016 was a result of the gross negligence of all the defendants. This claim follows a similar claim made against the Company in June 2017 by different relatives of the deceased which was settled on September 5, 2018. Plaintiff in this matter asserts his claim now having reached the age of majority and is requesting damages of no less than \$1.5 million. On October 5, 2022, the Plaintiff voluntarily dismissed the case without prejudice, and refiled the case on January 10, 2023. The Company disputes the Plaintiff’s claims and has filed its Answer and Affirmative Defenses to the re-filed complaint. Based on the preliminary stage of the proceedings and after consultation with legal counsel, no accrual for a potential loss has been made.

Michael Matthews v. Track Group, Inc., et al. On December 13, 2022, Plaintiff Michael Matthews filed a complaint in the Circuit Court of Cook County, Illinois (2022 L 011050) against the Company and other defendants alleging wrongful arrest and incarceration and a deprivation of his rights following his purportedly erroneous violation of home monitoring program requirements. The Company disputes the allegations of the complaint, has retained counsel, and intends to vigorously defend the case. Based on the preliminary stage of the proceedings and after consultation with legal counsel, no accrual for a potential loss has been made.

Monitoring Equipment and Other Related Services

The Company leases monitoring equipment and provides monitoring services to its customers with contract terms varying from month-to-month to several years and each daily contract price varies. Devices supplied to customers are not serial number unique and a single device may be used by multiple customers over its useful life. If a leased device is returned for repair, it will likely be replaced with a different device from a different customer or possibly a new device.

The Company’s tracking devices are considered operating leases under ASC 842 as transfer of control of the asset does not occur at the end of the lease, a single device is not specific to a customer and devices may be used by multiple customers throughout their life cycle. Due to the movement of devices from customer to customer, relatively few long-term contracts, the measurement of the equipment life and the present value of the equipment’s fair values would not be a measurement to qualify the devices as sales-type leases.

[Table of Contents](#)

Operating lease and monitoring revenue associated with the Company's monitoring equipment for the three and six months ended March 31, 2023 and 2022 are shown in the table below:

	Three months ended March 31,	
	2023	2022
Monitoring equipment operating revenue	\$ 6,827,744	\$ 7,457,025

	Six months ended March 31,	
	2023	2022
Monitoring equipment operating revenue	\$ 13,805,186	\$ 15,451,482

Performance Bonds

As of March 31, 2023, the Company has one performance bond in connection with a foreign customer totaling \$1,508,325, ("*Performance Bond*") which is held in an interest-bearing account on behalf of the customer and recorded in other assets on the Condensed Consolidated Balance Sheets. The amount held on this Performance Bond will be released after the expiration of the Performance Bond, all contract extensions have been exhausted, and the consent of the customer but in no event before July 2024 and more likely in 2025.

The amounts held on two performance bonds were released in the second quarter of 2023 and the Company received \$1,041,797, including interest.

The Company pays interest on the full amount of the Performance Bond to the financial institution providing the guarantee at 2.8% interest per annum for the Performance Bond expiring in July 2024. The Company recorded interest expense for the three months ended March 31, 2023 and 2022 of \$14,067 and \$16,248, respectively. The Company recorded interest expense for the six months ended March 31, 2023 and 2022 of \$31,569 and \$33,416, respectively.

(24) SUBSEQUENT EVENTS

In accordance with the Subsequent Events Topic of the FASB, ASC 855, we have evaluated events through the filing date and noted the following subsequent to the end of the quarter.

On April 26, 2023, the Company and Conrent entered into an amendment to the facility agreement (the "*Amendment*") originally executed by and between the parties on December 30, 2013, as amended on June 30, 2015, July 19, 2018, February 24, 2019, January 10, 2020 and December 21, 2020 (the "*Amended Facility Agreement*"), containing certain provisions of the Company's existing \$42.864 million unsecured debt facility. The Amendment is effective on April 28, 2023 and extends the maturity date from July 1, 2024 to July 1, 2027. Furthermore, the Amendment: (i) amends the applicable Interest Rate and (ii) removes section 3.7 "Change of Control" of the Amended Facility Agreement. In return, the Company agreed to pay certain fees to Conrent.

For additional information on the above subsequent event, see the Company's Current Report on Form 8-K filed with the SEC on April 27, 2023.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q (this "Quarterly Report", or, this "Report") contains information that constitutes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Generally, the statements contained in this Report that are not purely historical can be considered to be "forward-looking statements". These statements represent our expectations, hopes, beliefs, anticipations, commitments, intentions, and strategies regarding the future. They may be identified by the use of words or phrases such as "believes", "expects", "intends", "anticipates", "should", "plans", "estimates", "projects", "potential", and "will" among others. Forward-looking statements include, but are not limited to, statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations regarding our financial performance, revenue, and expense levels in the future and the sufficiency of our existing assets to fund future operations and capital spending needs. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those described in "Risk Factors" in our most recent Annual Report on Form 10-K, and those described from time to time in our reports filed with the Securities and Exchange Commission ("SEC").

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto that are contained in this Report, as well as Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended September 30, 2022, and Current Reports on Form 8-K that have been filed with the SEC through the date of this Report. Except as otherwise indicated, as used in this Report, the terms the "Company", "Track Group", "we", "our", and "us" refer to Track Group, Inc., a Delaware corporation.

General

Our business is based on the leasing of patented tracking and monitoring solutions to federal, state and local law enforcement agencies, both in the U.S. and abroad, for the electronic monitoring of offenders and offering unique data analytics services on a platform-as-a-service ("PaaS") business model. Currently, the Company deploys offender-based management services that combine patented GPS tracking technologies, full-time 24/7/365 global monitoring capabilities, case management, and proprietary data analytics. The Company offers customizable tracking solutions that leverage real-time tracking data, best-practices monitoring, and analytics capabilities to create complete, end-to-end tracking solutions.

Devices - Our devices consist principally of the ReliAlert® product line. These devices are generally leased on a daily rate basis and may be combined with our monitoring center services, proprietary software and data analytics subscription to provide an end-to-end PaaS.

ReliAlert®XC4 is our flagship GPS device, which is among the safest and most reliable monitoring devices ever made and was certified in 2020 by the Federal Communications Commission and PCS Type Certification Review Board. It is the only one-piece GPS device with patented 3-way voice communication to assist intervention efforts, now on the LTE network with increased battery life. This device includes on-board processing, secondary location technology, a 95db siren, embedded RF technology, anti-tampering capability, increased battery life and sleep mode.

ReliAlert®-XC 3 is our predecessor device which had advanced features enable agencies to effectively track offender movements and communicate directly with offenders in real-time, through a patented, on-board two/three-way voice communication technology. This device includes an enhanced GPS antenna and GPS module for higher sensitivity GPS, enhanced voice audio quality, increased battery performance of 50+ hours, 3G cellular capabilities, improved tamper sensory, and durability enhancements.

Monitoring Center Services - Our monitoring centers provide live 24/7/365 monitoring of all alarms generated from our devices, as well as customer and technical support. Our monitoring center operators play a vital role, and as such, are staffed with highly trained, bi-lingual individuals. These operators act as an extension of agency resources receiving alarms, communicating and intervening with offenders regarding violations and interacting with supervision staff, all pursuant to agency-established protocols. The facilities have redundant power source, battery backup and triple redundancy in voice, data and IP. We have assisted in the establishment of monitoring centers for customers and local partners in the United States, Chile and other global locations.

[Table of Contents](#)

Data Analytics Services - Our IntelliTrack, TrackerPAL® software, IntelliTrack Mobile, TrackerPAL® Mobile, combined with our Data Analytic analysis tools, provide an integrated platform allowing case managers and law enforcement officers quick access views of an offender's travel behavior, mapping, and inference on patterns. Our data analytics services help facilitate the discovery and communication of meaningful patterns in diverse locations and behavioral data that helps agencies reduce risks and improve decision making. Our analytics applications use various combinations of statistical analysis procedures, data and text mining and predictive modeling to proactively analyze information on community-released offenders to discover hidden relationships and patterns in their behaviors and to predict future outcomes.

Other Services - The Company offers smartphone applications specifically designed for the criminal justice market, including a domestic violence app that creates a mobile geo-zone around a survivor and an alcohol monitoring app linked to a police-grade breathalyzer.

Business Strategy

We are committed to helping our customers improve offender rehabilitation and re-socialization outcomes through our innovative hardware, software and services. We treat our business as a service business. Although we still manufacture patented tracking technology, we see the physical goods as only a small part of the integrated offender monitoring solutions we provide. Accordingly, rather than receiving a payment just for a piece of manufactured equipment, the Company receives a recurring stream of revenue for ongoing device agnostic subscription contracts. As part of our strategy, we continue to expand our device-agnostic platform to not only collect, but also store, analyze, assess and correlate location data for both accountability and auditing reasons, as well as to use for predictive analytics and assessment of effective and emerging techniques in criminal behavior and rehabilitation. We believe a high-quality customer experience along with knowledgeable salespeople who can convey the value of our products and services greatly enhances our ability to attract and retain customers. Therefore, our strategy also includes building and expanding our own direct sales force and our third-party distribution network to effectively reach more customers and provide them with a world-class sales and post-sales support experience. In addition, we are developing related-service offerings to address adjacent market opportunities in both the public and private sectors. We believe continual investment in research and development (“R&D”), including smartphone applications and other monitoring services is critical to the development and sale of innovative technologies and integrated solutions today and in the future.

Critical Accounting Policies

From time to time, management reviews and evaluates certain accounting policies that are considered to be significant in determining our results of operations and financial position.

A description of the Company's critical accounting policies that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended September 30, 2022, filed with the SEC on December 16, 2022. During the six months ended March 31, 2023, there have been no material changes to the Company's critical accounting policies.

The preparation of financial statements requires management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expense. By their nature, these judgments are subject to an inherent degree of uncertainty. We assess the reasonableness of our estimates, including those related to bad debts, inventories, right of use assets, estimated useful lives, intangible assets, warranty obligations, product liability, revenue, legal matters and income taxes. We base our estimates on historical experience as well as available current information on a regular basis. Management uses this information to form the basis for making judgments about the carrying value of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

Government Regulation

Our operations are subject to various federal, state, local and international laws and regulations. We are not involved in any pending or, to our knowledge, threatened governmental proceedings, which would require curtailment of our operations because of such laws and regulations.

The COVID-19 pandemic adversely impacted both the Company's revenue and costs in the past by disrupting its operations in Chile, causing shortages within the supply chain and postponing certain sales opportunities as some government agencies delayed new RFP (Request for Proposal) processes or decisions. Notwithstanding the challenges, the monitoring being performed by the Company's significant customers across the globe and key business partners providing manufacturing and call center services have all remained operational. In addition, both our Chile office and the corporate headquarters in the greater-Chicago area have been open nearly eighteen months. However, the Company is operating in a rapidly changing environment, and the extent to which COVID-19 impacts its business, operations and financial results going forward will depend on numerous evolving factors that the Company cannot accurately predict. Those factors include: the duration and scope of the pandemic; governmental, business and individuals' actions that have been and continue to be taken in response to the pandemic; the development of widespread testing or a vaccine; the ability of our supply chain to meet the Company's need for equipment; the ability to sell and provide services and solutions if shelter in place restrictions and people working from home are extended to ensure employee safety; the volatility of foreign currency exchange rates and the subsequent effect on international transactions; and any closures of clients' offices or the courts on which they rely.

Results of Operations

Three Months Ended March 31, 2023 Compared to Three Months Ended March 31, 2022

Revenue

For the three months ended March 31, 2023, the Company recognized total revenue from operations of \$8,308,046 compared to \$9,484,119 for the three months ended March 31, 2022, a decrease of \$1,176,073, or approximately 12%. The decrease in monitoring revenues is driven principally by fluctuations in court proceedings where active devices are assigned to customers in Illinois, California, the Bahamas and Canada, partially offset by an increase in monitoring revenues for customers in Nevada and Panama.

Product sales and other revenue for the three months ended March 31, 2023 decreased to \$129,021 from \$641,633 in the same period in 2022, a decrease of \$512,612 or approximately 80%, primarily due to purchases from a partner in Saudi Arabia in February 2022.

The industry in which the Company operates, as well as many other industries (automotive, consumer products and medical devices), has been impacted by the global semiconductor shortage. The availability of semiconductor parts continued to improve in the first half of fiscal 2023; however, long lead times remain with certain parts.

Cost of Revenue

During the three months ended March 31, 2023, cost of revenue totaled \$4,565,241 compared to cost of revenue during the three months ended March 31, 2022 of \$4,945,134, a decrease of \$379,893 or approximately 8%. The decrease in cost of revenue was largely the result of lower monitoring center costs of \$133,427, lower communication costs of \$165,182, lower hardware purchases of \$49,534, and lower product sales costs of \$109,934, partially offset by higher depreciation and amortization costs of \$50,799 and higher lost, stolen, and damaged costs of \$58,176.

Depreciation and amortization included in cost of revenue for the three months ended March 31, 2023 and 2022 totaled \$843,714 and \$792,915, respectively, an increase of \$50,799. These costs represent the depreciation of ReliAlert® and other monitoring devices, as well as the amortization of monitoring software and certain royalty agreements. The increase in depreciation and amortization costs is largely due to an increase in device depreciation expense of \$86,881, offset by a decrease in amortization for discontinued product, Shadow, of \$36,082. Devices are depreciated over either a three- or five-year useful life. Monitoring software is amortized over a seven-year life. Royalty agreements are being amortized over a ten-year useful life. The Company believes these lives are appropriate due to changes in electronic monitoring technology and the corresponding potential for obsolescence. Management periodically assesses the useful life of the devices for appropriateness.

[Table of Contents](#)

Gross Profit and Margin

During the three months ended March 31, 2023, gross profit totaled \$3,742,805, resulting in a gross margin of approximately 45%. During the three months ended March 31, 2022, gross profit totaled \$4,538,985, resulting in a gross margin of approximately 48%. The decrease in absolute gross profit of \$796,180 or approximately 18% is due to lower revenue, partially offset by a decrease in communication services and monitoring center costs.

General and Administrative Expense

During the three months ended March 31, 2023, general and administrative expense totaled \$2,869,799 compared to \$2,770,657 for the three months ended March 31, 2022. The increase of \$99,142 or approximately 4% in general and administrative expense resulted largely from higher insurance costs of \$93,849, higher stock-based compensation of \$51,458, and higher payroll and payroll taxes of \$180,572. These costs were offset by lower legal and professional fees of \$159,873.

Selling and Marketing Expense

During the three months ended March 31, 2023, selling and marketing expense totaled \$768,871 compared to \$720,709 for the three months ended March 31, 2022. The increase in expense of \$48,162 or approximately 7% is principally the result of higher travel and entertainment costs of \$21,192 and higher payroll and taxes of \$44,924, partially offset by lower consulting and outside service expenses of \$19,113.

Research and Development Expense

During the three months ended March 31, 2023, research and development expense totaled \$706,772 compared to \$625,477 for the three months ended March 31, 2022. The increase in expense of \$81,295 or approximately 13% was primarily due to an increase in payroll, dues and subscriptions, and consulting and outside services expenses.

Depreciation and Amortization Expense

During the three months ended March 31, 2023, depreciation and amortization expense totaled \$247,574 compared to \$414,771 for the three months ended March 31, 2022, a decrease of \$167,197 or approximately 40%, largely due to an impairment of our developed technology intangible assets in the fourth quarter of fiscal 2022.

Total Operating Expense

During the three months ended March 31, 2023, total operating expense increased to \$4,593,016 compared to \$4,531,614 for the three months ended March 31, 2022, an increase of \$61,402 or approximately 1%. The increase is principally due to the factors disclosed above.

Operating Income (Loss)

During the three months ended March 31, 2023, operating loss was (\$850,211) compared to operating income of \$7,371 for the three months ended March 31, 2022, representing a significant reduction of \$857,582. This reduction was principally due to a decrease in gross profit of \$796,180.

Other Income (Expense)

For the three months ended March 31, 2023, other expense totaled (\$329,184) compared to other income of \$571,664 for the three months ended March 31, 2022, a decrease of \$900,848. The decrease in other income is largely due to a vendor forgiving \$633,471 of accrued expenses in 2022 and negative currency exchange rate movements of \$324,577 between the US Dollar vs. the Chilean Peso, compared to the second fiscal quarter of 2022.

Net Income (Loss) Attributable to Common Stockholders

The Company had net loss attributable to common stockholders of (\$1,485,258) for the three months ended March 31, 2023, compared to a net income attributable to common stockholders of \$452,241 for the three months ended March 31, 2022, a decrease of \$1,937,499. This decrease is due to a higher operating loss, a decrease in currency exchange rate gain and higher income tax expense related to Chile tax on certain payments made to the to the U.S. parent company and Chile estimated tax payments.

Six months Ended March 31, 2023 Compared to Six months Ended March 31, 2022

Revenue

For the six months ended March 31, 2023, the Company recognized total revenue from operations of \$17,163,737 compared to \$19,079,775 for the six months ended March 31, 2022, a decrease of \$1,916,038, or approximately 10%. The decrease in monitoring revenues is driven principally by fluctuations in court proceedings where active devices are assigned to customers in Illinois, California, the Bahamas and Canada, partially offset by an increase in monitoring revenues for customers in Nevada and Panama.

Product sales and other revenue for the six months ended March 31, 2023 decreased to \$694,930 from \$767,560 in the same period in 2022, a decrease of \$72,630 or approximately 9%, primarily due to purchases from a partner in Saudi Arabia in February 2022.

The industry in which the Company operates, as well as many other industries (automotive, consumer products and medical devices), have been impacted by the global semiconductor shortage. The availability of semiconductor parts continued to improve in the first half of fiscal 2023; however, long lead times remain with certain parts.

Cost of Revenue

During the six months ended March 31, 2023, cost of revenue totaled \$9,240,254 compared to cost of revenue during the six months ended March 31, 2022 of \$9,740,561, a decrease of \$500,307 or approximately 5%. The decrease in cost of revenue was largely the result of lower monitoring center costs of \$223,870, lower communication costs of \$174,671, lower software maintenance costs of \$44,929, lower product sales costs of \$96,558 and lower commission costs of \$44,990, partially offset by higher server costs of \$59,385, higher lost, stolen and damaged costs of \$25,523 and higher device repair costs of \$36,846.

Depreciation and amortization included in cost of revenue for the six months ended March 31, 2023 and 2022 totaled \$1,616,733 and \$1,656,764, respectively, a decrease of \$40,031. These costs represent the depreciation of ReliAlert® and other monitoring devices, as well as the amortization of monitoring software and certain royalty agreements. The decrease in depreciation and amortization costs is largely due to a decrease in amortization for discontinued product, Shadow, of \$75,200, offset by an increase in device depreciation expense of \$35,169. Devices are depreciated over either a three- or five-year useful life. Monitoring software is amortized over a seven-year life. Royalty agreements are being amortized over a ten-year useful life. The Company believes these lives are appropriate due to changes in electronic monitoring technology and the corresponding potential for obsolescence. Management periodically assesses the useful life of the devices for appropriateness.

Gross Profit and Margin

During the six months ended March 31, 2023, gross profit totaled \$7,923,483, resulting in a gross margin of approximately 46%. During the six months ended March 31, 2022, gross profit totaled \$9,339,214, resulting in a gross margin of approximately 49%. The decrease in absolute gross profit of \$1,415,731 or approximately 15% is due to lower revenue, partially offset by a decrease in certain costs of revenue.

General and Administrative Expense

During the six months ended March 31, 2023, general and administrative expense totaled \$5,624,320 compared to \$5,269,016 for the six months ended March 31, 2022. The increase of \$355,304 or approximately 7% in general and administrative expense resulted largely from higher payroll and payroll taxes of \$314,831, bad debt costs of \$100,042, higher insurance costs of \$183,663, higher stock-based compensation of \$113,209 and higher travel and entertainment costs of \$60,321. These costs were offset by lower legal and professional fees of \$295,077, lower training and recruiting costs of \$51,917, lower fees and licenses of \$33,389 and lower board of director fees of \$25,000.

[Table of Contents](#)

Selling and Marketing Expense

During the six months ended March 31, 2023, selling and marketing expense totaled \$1,498,341 compared to \$1,418,581 for the six months ended March 31, 2022. The increase in expense of \$79,760 or approximately 6% is principally the result of higher travel and entertainment costs of \$49,523 and higher payroll and taxes of \$59,746, partially offset by lower consulting and outside service expenses of \$24,343.

Research and Development Expense

During the six months ended March 31, 2023, research and development expense totaled \$1,296,577 compared to \$1,216,329 for the six months ended March 31, 2022. The increase in expense of \$80,248 or approximately 7% was primarily due to increases in consulting and outside services expenses.

Depreciation and Amortization Expense

During the six months ended March 31, 2023, depreciation and amortization expense totaled \$495,283 compared to \$831,572 for the six months ended March 31, 2022, a decrease of \$336,289 or approximately 40%, largely due to intangible assets that were fully amortized in the period and an impairment of intangible assets recorded in the fourth quarter of fiscal 2022.

Total Operating Expense

During the six months ended March 31, 2023, total operating expense increased to \$8,914,521 compared to \$8,735,498 for the six months ended March 31, 2022, an increase of \$179,023 or approximately 2%. The increase is principally due to the factors disclosed above.

Operating Income (Loss)

During the six months ended March 31, 2023, operating loss was (\$991,038) compared to operating income of \$603,716 for the six months ended March 31, 2022, a reduction of \$1,594,754 or approximately 264%. This reduction was principally due to a decrease in gross profit of \$1,415,731.

Other Income and Expense

For the six months ended March 31, 2023, other expense totaled (\$265,583) compared to (\$16,174) for the six months ended March 31, 2022, an increase of \$249,409. The increase in other expense is largely due to a vendor forgiving \$633,471 of accrued expenses in 2022 partially offset by positive currency exchange rate movements of \$264,852 between the US Dollar vs. the Chilean Peso, compared to the first half of fiscal 2022, and lower net interest expense of \$119,210.

Net Income (Loss) Attributable to Common Stockholders

The Company had net loss attributable to common stockholders of (\$1,448,874) for the six months ended March 31, 2023, compared to net income attributable to common stockholders of \$146,919 for the six months ended March 31, 2022. This decrease is due to lower operating income and a vendor forgiving \$633,471 of accrued expenses in 2022, partially offset by positive currency exchange rate movements, lower interest expense and lower income tax expense.

Liquidity and Capital Resources

The Company is currently self-funded through net cash provided by operating activities.

On October 21, 2020, the Company requested, in writing, an additional extension to the maturity date of the \$30.4 million Amended Facility Agreement. On November 25, 2020, the Noteholders held a meeting to address the Company's request and approved a new maturity date of July 1, 2024. On December 21, 2020, Conrent and the Company signed the Amended Facility, which extended the maturity date of the Amended Facility Agreement to July 1, 2024, capitalized the accrued and unpaid interest which increased the outstanding principal amount and reduced the interest rate of the Amended Facility from 8% to 4%. On March 1, 2021, Conrent completed their documentation and the updated registration process to implement these changes and the Company transferred \$12,531,556 of accrued interest to the note payable for total principal of \$42,931,556. Conrent forgave \$67,556 of the amount due and the new Amended Facility principal and interest became \$42,864,000. Interest payments were scheduled to be made on June 30 and December 31 each year, which began on June 30, 2021. We began amortizing deferred financing fees of approximately \$360,000 on July 1, 2021. As of March 31, 2023, \$42,864,000 of principal and \$428,640 of interest was owed to Conrent. On April 26, 2023, the Company and Conrent entered into an amendment to the facility agreement (the "Amendment") originally executed by and between the parties on December 30, 2013, as amended on June 30, 2015, July 19, 2018, February 24, 2019, January 10, 2020 and December 21, 2020 (the "Amended Facility Agreement"), containing certain provisions of the Company's existing \$42.864 million unsecured debt facility. The Amendment is effective on April 28, 2023 and extends the maturity date from July 1, 2024 to July 1, 2027. Furthermore, the Amendment: (i) amends the applicable Interest Rate and (ii) removes section 3.7 "Change of Control" of the Amended Facility Agreement. In return, the Company agreed to pay certain fees to Conrent.

On January 6, 2021, the Company borrowed 70,443,375 Chilean Pesos ("CLP") (\$101,186USD) from HP Financial Services Chile Limitada. To facilitate the Loan, the Company entered into a Note Payable Agreement with HP Financial Services Chile Limitada as lender. The loan was used to purchase PABX (private automatic branch exchange phone equipment) for the construction of the Gendarmeria de Chile monitoring centers in Santiago and Puerto Montt, Chile. The loan bears an interest rate of 6.56% per annum, payable monthly with principal beginning February 2021, and a maturity date of February 6, 2024.

On January 12, 2021, the Company borrowed 347,198,500CLP (\$482,965USD), net of 2,801,500CLP fees (\$3,897USD), from Banco Santander. To facilitate the Loan, the Company entered into a Note Payable Agreement with Banco Santander as lender. The loan was used to comply with the construction of Gendarmeria de Chile monitoring center in Santiago, Chile and remodeling a temporary monitoring center. The loan bears an interest at a rate of 5.04% per annum, payable monthly with principal beginning February 2021, and a maturity of May 11, 2024. The Company also paid 19,607,843CLP (\$27,275USD) in broker fees which are amortized over the life of the loan.

On February 2, 2021, the Company borrowed 247,999,300CLP (\$338,954USD), net of 2,000,700CLP fees (\$2,734USD), from Banco Estado. To facilitate the Loan, the Company entered into a Note Payable Agreement with Banco Estado as lender. The loan provided was used for the construction of the Gendarmeria de Chile monitoring center in Santiago and computer equipment for Gendarmeria branch offices. The loan bears an interest rate of 3.50% per annum, initially having a 6-month grace period with the first payment including the 6 months of interest plus 1 month of principal on August 2, 2021, then monthly interest with principal, and a maturity date of January 2, 2024. The Company also paid 14,124,294CLP (\$19,304USD) in broker fees which are amortized over the life of the loan.

On February 4, 2021, the Company borrowed 149,794,432CLP (\$205,330USD) from HP Financial Services Chile Limitada. To facilitate the Loan, the Company entered into a Note Payable Agreement with HP Financial Services Chile Limitada as lender. The loan was used to purchase computer equipment for the Gendarmeria de Chile monitoring center in Santiago, Chile. The loan bears an interest at a rate of 6.61% per annum, payable monthly with principal beginning March 2021, and a maturity of March 4, 2024.

On February 5, 2021, the Company borrowed of 99,808,328CLP (\$136,564USD), net of 210,485CLP fees (\$286USD), from Banco de Chile. To facilitate the Loan, the Company entered into a Note Payable Agreement with Banco de Chile as lender. The loan provided was used to purchase HVAC equipment for Gendarmeria de Chile monitoring center in Santiago, Chile. The loan bears an interest rate of 2.54% per annum, payable monthly with principal beginning March 2021, and a maturity date of March 4, 2024.

On February 15, 2021, the Company borrowed 500,000,000CLP (\$678,214USD) from Banco de Chile. To facilitate the Loan, the Company entered into a Note Payable Agreement with Banco de Chile as lender. The loan proceeds were used as working capital and to complete the construction of the Gendarmeria monitoring center in Puerto Montt, Chile. The loan bears an interest at a rate of 3.12% per annum, payable monthly with principal beginning March 2021, and a maturity of February 17, 2025. The Company also paid 28,248,588CLP (\$38,317USD) in broker fees which are amortized over the life of the loan.

No borrowings or sales of equity securities occurred during the six months ended March 31, 2023 or during the year ended September 30, 2022.

Net Cash Flows Provided by Operating Activities.

During the six months ended March 31, 2023, we had cash flows from operating activities of \$2,133,053, compared to cash flows from operating activities of \$1,263,350 for the six months ended March 31, 2022, representing an increase of \$869,703 or approximately 69%. The increase in cash flows from operations was largely the result of decreases in our net operating assets, mainly driven by decreases in accounts receivable and prepaid expense, deposits, deferred tax assets and other assets.

Net Cash Flows Used in Investing Activities.

The Company used \$3,548,322 of cash for investing activities during the six months ended March 31, 2023, compared to \$2,359,136 of cash used for investing activities during the six months ended March 31, 2022. The increase in cash used for investing activities was primarily related to purchases of monitoring and other equipment to complete the swap of 3G devices and meet customer demand during the six months ended March 31, 2023.

Net Cash Flows Used in Financing Activities.

The Company used \$276,666 of cash for financing activities during the three months ended March 31, 2023, which was the result of loan principal payments on Chile's long-term debt, compared to \$249,142 of cash used for financing activities during the six months ended March 31, 2022.

Liquidity, Working Capital and Management's Plan

As of March 31, 2023 the Company had unrestricted cash of \$4,014,530 compared to unrestricted cash of \$5,311,104 as of September 30, 2022. As of March 31, 2023, the Company had working capital of \$5,228,419, compared to working capital of \$7,296,297 as of September 30, 2022. This decrease in working capital of \$2,067,878 is principally due to the purchase of monitoring equipment, offset by a decrease in operating liabilities.

On October 21, 2020, the Company requested, in writing, an additional extension to the maturity date of the Amended Facility Agreement. On November 25, 2020, the Noteholders held a meeting to address the Company's request and approved a new maturity date of July 1, 2024. On December 21, 2020, Conrent and the Company signed an Amendment to the Amended Facility Agreement which extended the maturity date of the Amended Facility Agreement to July 1, 2024, capitalized the accrued and unpaid interest which increased the outstanding principal amount and reduced the interest rate of the Amended Facility Agreement from 8% to 4%. On June 30, 2021, the Company restarted interest payments to Conrent which have been made semi-annually since that time.

On April 26, 2023, the Company and Conrent entered into a new amendment to the Facility Agreement which further extended the maturity date from July 1, 2024 to July 1, 2027, established an escalation in the interest rate and required the Company to pay certain fees to Conrent.

During the fiscal year ended September 30, 2021, the Company borrowed approximately \$1.95 million through six notes payable to fund the construction of monitoring centers in Chile required by our new contract. These six notes mature between January 2024 to February 2025 and the principal repayments on these six notes have all commenced. No additional funds were borrowed during the six months ended March 31, 2023 or borrowed during the fiscal year end September 30, 2022.

Inflation

The rise in inflation in fiscal 2022 and the first half of fiscal 2023 has adversely impacted the Company's cost of labor, materials and other operating expenses. We expect cost inflation to remain elevated throughout the rest of fiscal 2023 but anticipate continued supply chain productivity and pricing actions to mitigate some of the inflationary pressures.

Off-Balance Sheet Financial Arrangements

The Company has not entered into any transactions with unconsolidated entities whereby the Company has financial guarantees, derivative instruments, or other contingent arrangements that expose the Company to material continuing risks, contingent liabilities, or any other obligation that provides financing, liquidity, market risk, or credit risk support to the Company.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company footprint extends to a number of countries outside the United States, and we intend to continue to examine international opportunities. As a result, our revenue and results of operations are affected by fluctuations in currency exchange rates, interest rates, transfer pricing changes, taxes and other uncertainties inherent in doing business in more than one currency. In addition, our operations are exposed to risks that are associated with changes in social, political and economic conditions in the foreign countries in which we operate, including changes in the laws and policies that govern foreign investment, as well as, to a lesser extent, changes in United States laws and regulations relating to foreign trade and investment.

Foreign Currency Risks

We had \$3,085,549 and \$3,050,246 in foreign currency revenue from sources outside of the United States for the six months ended March 31, 2023 and 2022, respectively. We made and received payments in a foreign currency during the periods indicated, which resulted in foreign exchange gain of \$554,943 and \$290,091 in the six months ended March 31, 2023 and 2022, respectively. Fluctuations in the exchange loss or gain in any given period are due to the strengthening or weakening of the U.S. dollar against the Chilean Peso and Canadian dollar which have been magnified by global matters, inflation, and the government policies established to address those issues. Changes in currency exchange rates affect the relative prices at which we sell our products and purchase goods and services. Given the uncertainty of exchange rate fluctuations, we cannot estimate the effect of these fluctuations on our future business, product pricing, results of operations, or financial condition. We periodically enter into small, simple forward foreign currency exchange contracts or derivative financial instruments to mitigate the risk of repatriating funds converted from foreign currency into U.S. dollars for hedging purposes. To the extent foreign sales become a more significant part of our business in the future, we may seek to implement additional strategies which make use of these or other instruments in order to minimize the effects of foreign currency exchange on our business and/or require some international customers to receive invoices and make payments in US dollars.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) to ensure that material information relating to the Company is made known to the officers who certify our financial reports and to other members of senior management and the Board of Directors. These disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports that are filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Under the supervision and with the participation of management, including the principal executive officer and principal financial officer, an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2023 was completed pursuant to Rules 13a-15(b) and 15d-15(b) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective and designed to provide reasonable assurance that the information required to be disclosed is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms as of March 31, 2023.

Changes in Internal Controls

We maintain a system of internal control over financial reporting that is designed to provide reasonable assurance that our books and records accurately reflect our transactions and that our established policies and procedures are followed. There was no change in our internal control over financial reporting during our quarter ended March 31, 2023 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is, from time to time, involved in various legal proceedings incidental to the conduct of our business. Historically, the outcome of nearly all such legal proceedings has not, in the aggregate, had a material adverse effect on our business, financial condition, results of operations or liquidity. Other than as set forth below, there are no additional pending or threatened legal proceedings at this time.

SecureAlert, Inc. v. Federal Government of Mexico (Department of the Interior). On March 24, 2017, SecureAlert Inc. (a predecessor entity to Track Group, Inc. or the Company) filed a complaint before the Federal Administrative Tribunal, asserting the failure by defendants to pay claimant amounts agreed to, and due under, the Pluri Annual Contract for the Rendering of Monitoring Services of Internees, through Electric Bracelets, in the Islas Marias Penitentiary Complex dated July 15, 2011, entered into by and between the Organo Administrativo Desconcentrado Prevencion y Readaptacion Social (“OADPRS”) of the then Public Security Department, and presently, an agency of the National Security Commission of the Department of the Interior, and SecureAlert, Inc., presently Track Group, Inc. The Company’s claim amount is upwards of \$6.0 million. Although preliminary rulings have been unfavorable to the Company, the Company’s counsel continues to review its remaining claims and analyzing its options. Based upon the fee arrangement the Company has with its counsel, we anticipate the future liabilities attributable to legal expense will be minimal.

Commonwealth of Puerto Rico, through its Trustees v. International Surveillance Services Corporation. On January 23, 2020, the Company was served with a summons for an Adversary Action pending against International Surveillance Services Corporation (“ISS”), a subsidiary of the Company, now known as Track Group – Puerto Rico Inc., in the United States District Court for the District of Puerto Rico seeking to avoid and recover allegedly constructive fraudulent transfers and to disallow claims pursuant to United States Bankruptcy and Puerto Rican law. The allegations stem from payments made to ISS between 2014 and 2017, which the Company believes were properly made in accordance with a contract between ISS and the government of Puerto Rico, through the Oficina de Servicios con Antelacion a Juicio, originally signed in 2011. The Company is confident that all payments it received were earned and due under applicable law and produced documentation supporting its position in an informal document exchange with the Commonwealth on July 6, 2020. The parties held a mediation on November 1, 2022 and were unable to reach an agreement but left open the possibility of additional discussions. The Company remains confident in its position and no accrual for a potential loss has been made, after consultation with legal counsel.

Jeffrey Mohamed Abed v. Track Group, Inc., et al. On June 7, 2021, Jeffrey Mohamed Abed filed a complaint seeking unspecified damages in the Superior Court of the State of California in Case No. 21 STCV 21345, alleging strict products liability, negligence and breach of implied warranty premised upon injuries sustained by Abed who was involved in an automobile accident while wearing a GPS tracking device of the Company. The Company was served on October 15, 2021 and filed its Answer and Affirmative Defenses on November 12, 2021. On January 11, 2022 the Company issued discovery, and the discovery process remains ongoing. The Company disputes Abed’s claims and will defend the case vigorously. The Company remains confident in its position and no accrual for a potential loss has been made, after consultation with legal counsel.

Track Group Chile SpA. v. Republic of Chile. On January 24, 2022, Track Group Chile SpA. initiated a judicial action in the Court of Justice of Chile to settle a contract dispute with the Republic of Chile. The Company asserts that it has complied with its contractual obligations and that any delays in so doing were not attributable to the Company. The Company remains confident in its position and no accrual for a potential loss has been made, after consultation with legal counsel.

Jesus Valle Gonzalez, et al. v. Track Group-Puerto Rico, et al. On May 9, 2022 Plaintiff Jesus Valle Gonzalez filed a complaint in the Court of First Instance, San Juan Superior Court, Commonwealth of Puerto Rico against the Company, and associated parties alleging the death of his mother on June 8, 2016 was a result of the gross negligence of all the defendants. This claim follows a similar claim made against the Company in June 2017 by different relatives of the deceased which was settled on September 5, 2018. Plaintiff in this matter asserts his claim now having reached the age of majority and is requesting damages of no less than \$1.5 million. On October 5, 2022, the Plaintiff voluntarily dismissed the case without prejudice, and refiled the case on January 10, 2023. The Company disputes the Plaintiff’s claims, and has filed its Answer and Affirmative Defenses to the re-filed complaint. Based on the preliminary stage of the proceedings and after consultation with legal counsel, no accrual for a potential loss has been made.

[Table of Contents](#)

Michael Matthews v. Track Group, Inc., et al. On December 13, 2022, Plaintiff Michael Matthews filed a complaint in the Circuit Court of Cook County, Illinois (2022 L 011050) against the Company and other defendants alleging wrongful arrest and incarceration and a deprivation of his rights following his purportedly erroneous violation of home monitoring program requirements. The Company disputes the allegations of the complaint, has retained counsel, and intends to vigorously defend the case. Based on the preliminary stage of the proceedings and after consultation with legal counsel, no accrual for a potential loss has been made.

Item 1A. Risk Factors

Our results of operations and financial condition are subject to numerous risks and uncertainties described in our Annual Report on Form 10-K for our fiscal year ended September 30, 2022, filed on December 16, 2022. You should carefully consider these risk factors in conjunction with the other information contained in this Quarterly Report and other reports we file with the SEC. Should any of these risks materialize or deteriorate further, our business, financial condition and future prospects could be negatively impacted.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

On January 5, 2023, we received a letter from OTC Markets indicating that our common stock does not meet the continuing criteria for trading on the OTCQX because we do not have at least two independent directors on our Board of Directors. The letter also stated that we have one year from the date of non-compliance, or January 1, 2024, to regain compliance, or we will be moved from the OTCQX to an alternative market. We are currently considering applying to trade on the OTCQB marketplace in the event we fail to appoint an additional independent director to our Board prior to January 1, 2024.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Derek Cassell, Chief Executive Officer and Principal Executive Officer, of Track Group, Inc. (the “Company”), certify that:

1. I have reviewed this quarterly report on Form 10-Q of Track Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent three months (the registrant's fourth three months in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
